Reissue Application

Allowable Subject Matter

Claims 1-17 are allowed.

The rejection of claims 1-17 as being based upon a defective declaration under 35 U.S.C. 251 has been overcome by the supplemental oath/declaration filed under 37 CFR 1.175(b)(1) on 2-5-02.

STATEMENT OF REASONS FOR PATENTABILITY AND/OR CONFIRMATION

The following is an examiner's statement of reasons for patentability and/or confirmation of the claims found patentable in this reexamination proceeding:

Applicants' amendment filed 11-30-2000 distinguish the instant invention from the prior art of Stocchiero (US Patent 4,898,795). As amended, claim 10 requires "an expandable cover area surrounding at least said positive terminal, *said expandable cover area expanding as grid growth occurs.*" (Emphasis added.) As noted by the applicants, "Nothing in the Stocchiero '795 reference indicates that either the shoulder-ring 9 or the corrugated, bellows-shaped walls 7 expands as grid growth occurs..." In contrast to applicants' invention, Stocchiero specifically teaches that the tubular members surrounding the terminals are co-axially *compressible* as they slide axially in response to grid growth." Thus, although the cover area of the Stocchiero invention "may flex" in response to grid growth, the cover does not *expand as grid growth occurs.*

Any comments considered necessary by PATENT OWNER regarding the above statement must be submitted promptly to avoid processing delays. Such submission by

the patent owner should be labeled: "Comments on Statement of Reasons for Patentability and/or Confirmation" and will be placed in the reexamination file.
